STOP 01 OF 12

01 · WHAT THE COURSE IS, AND WHO IT IS FOR

An online course for the IMAT, from the basics up.

Ari Horesh, founder and lead instructor, a medical student at the University of Pavia.

Daniela
University Student of Neuroscience Psychology and Computer Science. She teaches the math and physics videos.

The IMAT is the entrance exam to study medicine in English in Italy. This course prepares you for it: video lessons that start from zero, thousands of practice questions, real past-paper questions decoded step by step, and a live month with Ari before the exam.

Who teaches you

Ari started preparing for the IMAT from scratch in 2019, and passed. He kept thinking there had to be a better, more affordable way to prepare, so in 2021 he paused his own studies for two full years to design an IMAT course that was both excellent and accessible. By January 2026, more than 700 students had prepared with his live classes or 1-on-1 coaching.

A small family business

EnterMedSchool is Ari and his sister Daniela. What drives them is study technique: making hard science simple, memorable and even fun, so that studying feels like understanding, not rereading notes.

How Ari teaches

From the very basics upward, in layers. The course builds study habits, plans your timeline and trains you on the mistakes the exam expects you to make. The platform finds your weak spots, and Ari looks at them too.

Who it is for

Complete beginners. We teach everything from the basics (math, physics, biology, chemistry) with 2,600+ videos starting from zero. No prior knowledge needed. **And** students on a gap year, retaking the IMAT, or applying from abroad.

02 · HOW A YEAR RUNS

One year, three layers.

02

The self-paced course is yours from the day you join until the exam. In summer, the advanced BootCamp runs live for the students who choose it. In the 4 weeks before the exam, every student gets the live month. This is how 2026 really ran.

SELF-PACED COURSE
every student, from the day you join until the exam

SUMMER BOOTCAMP
advanced, by choice

Foundations · Break · Advanced · Chemistry block · Physics

Foundations Jun 16 to Jul 13, lessons 1 to 14 · **Break** Jul 14 to Aug 2 ·
Advanced biology and physiology Aug 3 to 20 · **Physics track** Aug 10 to 26, 13 lessons ·
Chemistry block Aug 24 to 28

THE LIVE MONTH
every student

Sep 17, 18 the weak-spots marathons

IMAT Sep 29

Mon to Fri, Sep 3 to 25, Rome time

Months are not drawn to scale: the summer and the live month get more room.

TURN THE PAGE
the live month, up close, and 2027

02 · HOW A YEAR RUNS

The live month, lamp by lamp.

Every lamp is one class day of the 2026 live month, Monday to Friday, Sep 3 to 25, Rome time. Weekends are the gaps. The two coral lamps are the weak-spots marathons.

THE 2026 YEAR IN NUMBERS

147,000+
questions answered on the platform this season, since Apr 21, 2026.

44
BootCamp lessons recorded, 53.9 hours.

32
live-month sessions scheduled; 24 recorded.

2027: WHAT TO EXPECT

The same shape, dated by the exam.

- **IMAT 2027:** most likely in September 2027. The official date is announced in the summer.
- **The BootCamp:** from mid-June until the IMAT, following the official date. Expected to be similar to 2026.
- **The live month:** the 4 weeks before the exam, about 3 hours of classes a day on average, usually afternoon to evening CET.

DATES the exact 2027 class dates and times are set once the official IMAT 2027 date is announced.

THE LIVE MONTH, 2027

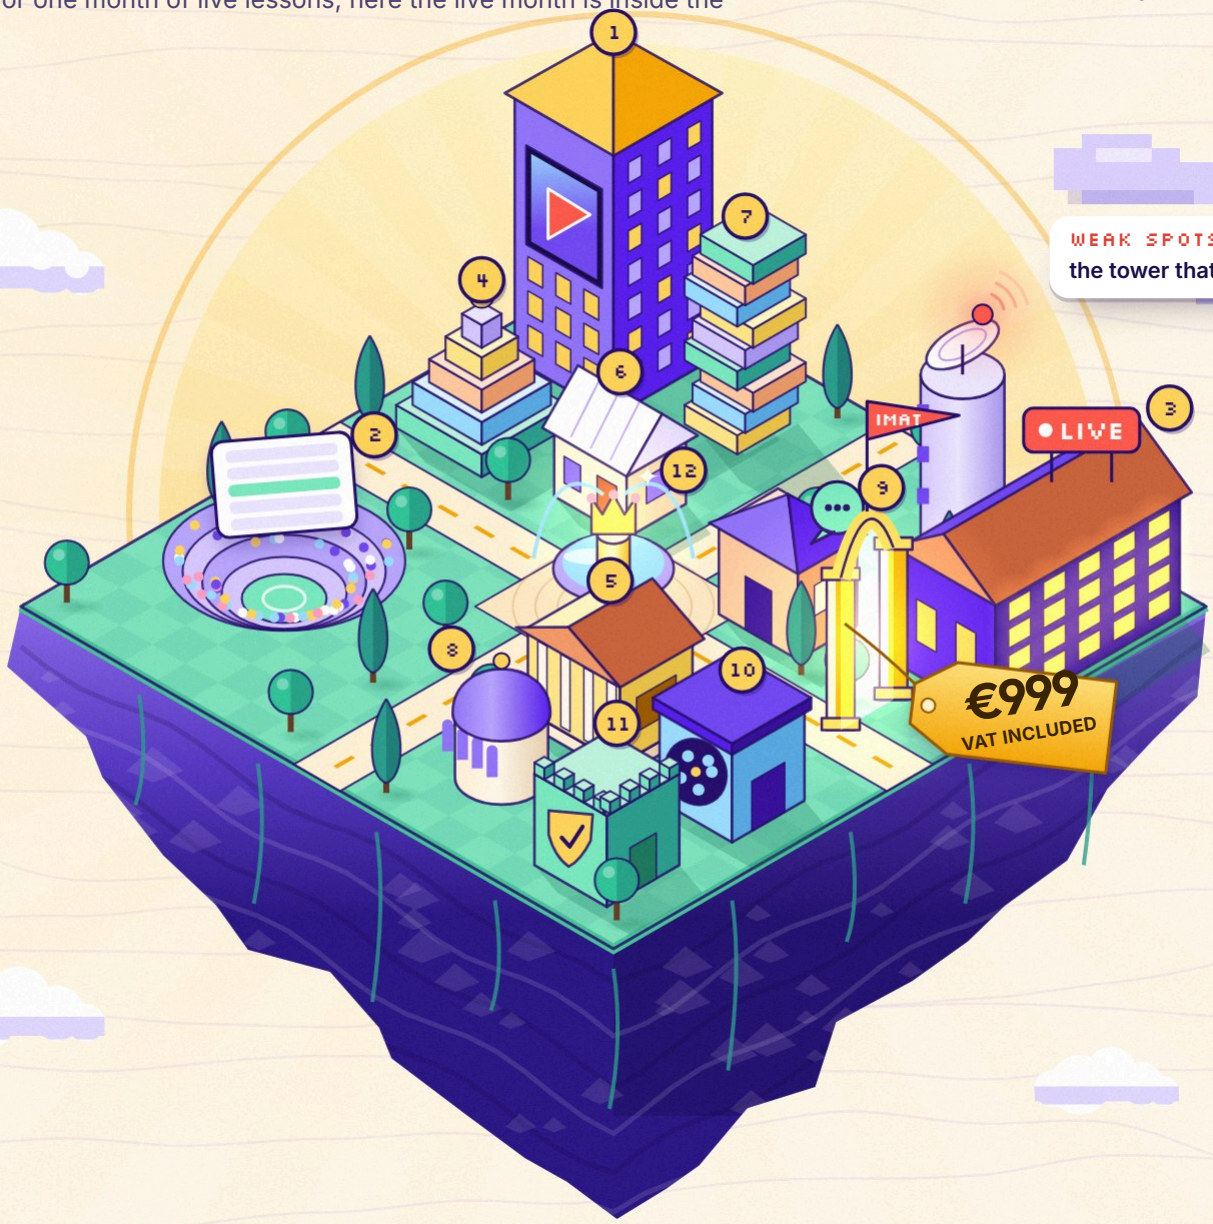

20 evenings, 4 weeks, then the exam. Included in the €999 course.

03 · WHAT YOU GET

Everything you get for €999.

VAT included, yours from the day you join until IMAT 2027. Every building in this town is one part of the course. Competitors charge €1,000+ for one month of live lessons; here the live month is inside the price.

Lifetime EnterMedSchool+ with every IMAT course

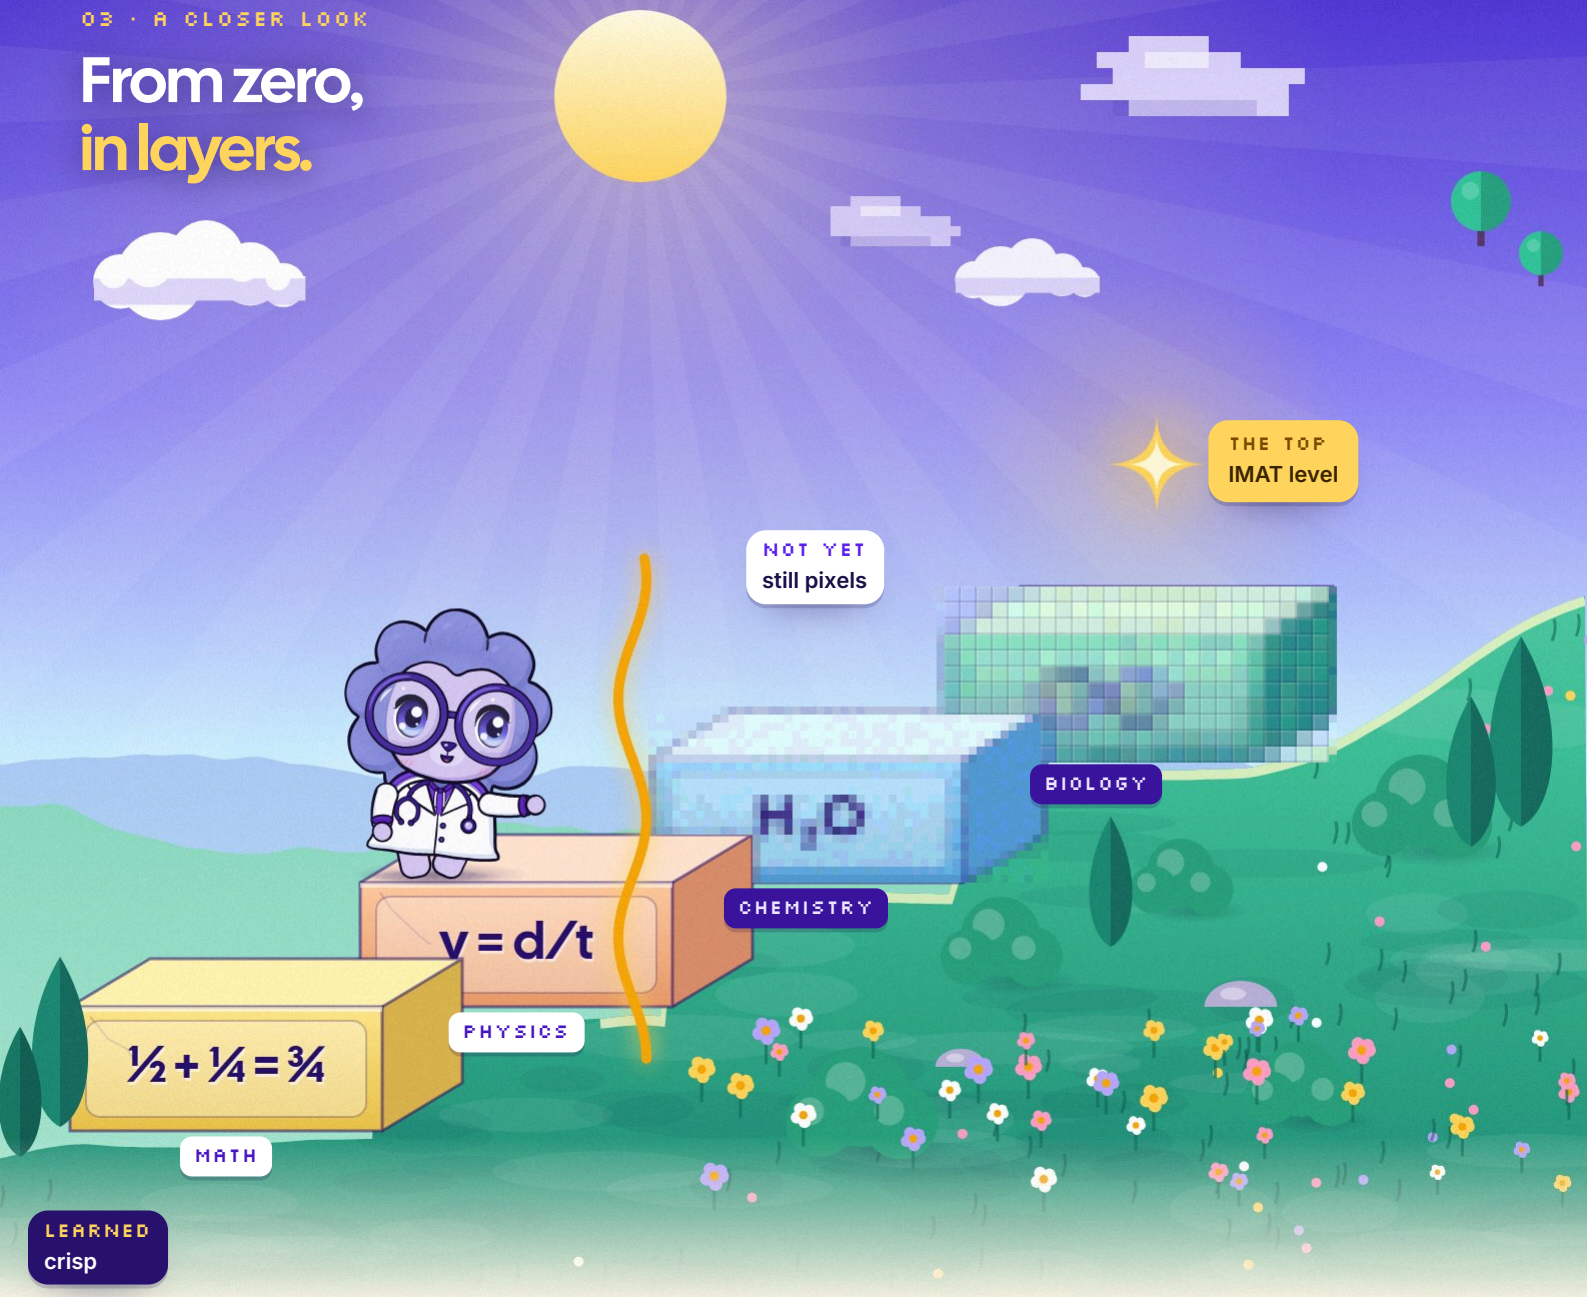

WEAK SPOTS
the tower that finds them

1. **200+ hours of video lessons**
   From the basics up, in every subject
2. **5,000+ IMAT-style practice questions**
   Questions just like the real exam
3. **The live month**
   The 4 weeks before the exam, live
4. **2,600+ math and physics videos**
   From zero, each concept building on the last
5. **300+ past-paper analysis videos**
   252 past-paper questions from 13 exam years, decoded
6. **500+ pages of notes and summaries**
   The most important concepts, summarized
7. **9,600+ flashcards**
   And 2,688 mapped concepts
8. **617 student questions, on video**
   Each jumps to the second Ari answers
9. **Direct WhatsApp access to Ari**
   For the tricky topics that need extra context
10. **Every BootCamp and live-month recording**
    Summer 2026 included, added by 1 November
11. **The pass guarantee**
    Use the course and don't pass: retake it free (page 17)
12. **Lifetime EnterMedSchool+**
    Our study platform, through med school and beyond

SOURCE the live course page and Ari, Sep 2026. Numbers as the course page states them.

From zero, in layers.

Math and physics, even without any background

2,600+ math and physics videos arranged so every concept builds on the previous one. Daniela teaches them on a whiteboard, step by step.

- **Pre-algebra:** integers, fractions, exponents
- **Algebra,** then probability and geometry
- **Physics:** from unit conversion and kinematics to circuits and magnetism

Three checkpoints sit along the math path. Built to take you from literally zero to IMAT level.

Real past papers, decoded

252 past-paper questions from 13 exam years (2011 to 2023), decoded step by step, and 300+ analysis videos that show how solving should look under real timing. Plus 200+ brand-new IMAT-format questions and bite-sized summaries of the highest-yield topics.

Never stuck for long

Post any question on the student-only platform and the teaching team and fellow students walk you through it. Ari's WhatsApp for direct support, and 617 past student questions answered on video.

Lifetime EnterMedSchool+

Included with every IMAT course: from now until the end of med school, and beyond.

- All simulators, questions, anatomy and mini-games, unlimited
- All lesson videos
- Library-term animations and term videos, unlimited
- 50 clinical cases and reasoning games a day
- Study-technique guides and tutorials
- **Your weak spots and what to do next**

Claimed once by email, for your personal account. Not transferable.

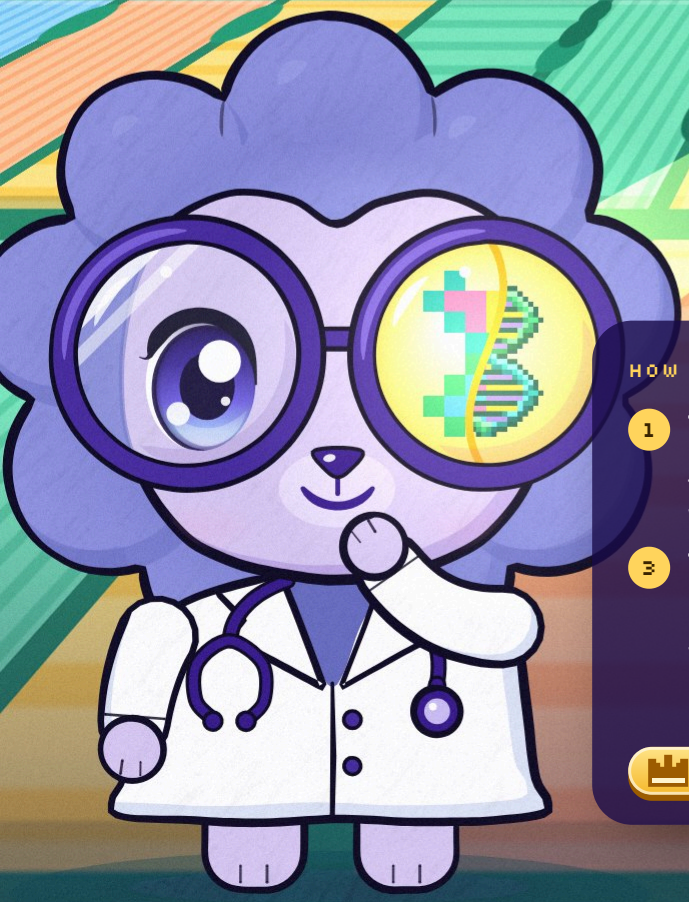

STOP 04 OF 12

04 · THE WEAK-SPOTS SYSTEM

We find what you don't know you don't know.

Every answer gets a confidence tap. The answers you were sure of and still got wrong come first, because you can't see that gap yourself. Then the class and the course move toward it.

Learned: crisp A weak spot: still pixels

REAL TRAPS FROM THE 2026 LIVE MONTH

SEP 11

1 of 24

got the carrier-probability question right. Twenty chose 1/16; the key was 1/24.

SEP 10

33%

got the crossover trap right.

SEP 16

9 of 29

got the X-linked carrier question right.

HOW IT WORKS ON THE PLATFORM

1. **Tap how sure you are**
   Every answer gets a confidence tap: how sure you were, and whether you got it right.
2. **False confidence first**
   "Confident but wrong" is flagged first, because you don't know you have a gap.
3. **Then the rest**
   "Unsure but correct", the decks under 50%, the decks not opened yet, and a calibration dial.
4. **What to do next**
   COMING IN 2027
   A full analysis with recommended library terms, simulators and book parts.

EnterMedSchool+

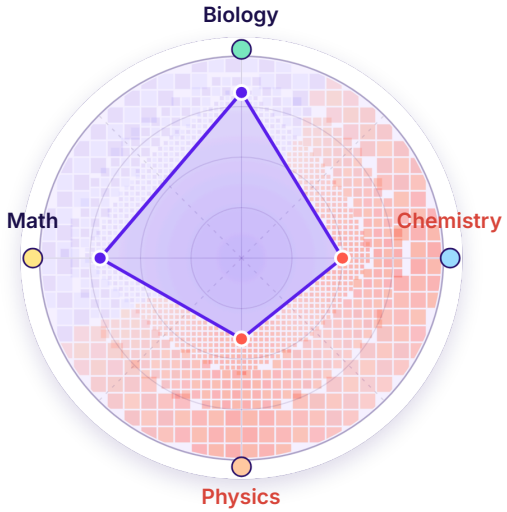

Your weak spots and what to do next is part of EnterMedSchool+, so it comes with the course for life.

> **Weak spots are our core feature. We deeply analyze students' weak spots, and Ari looks at them as well, making content on a yearly basis and adjusting the live marathons based on what the students find the most difficult that year.**
>
> Ari, Sep 29, 2026 (lightly edited for grammar)

Your subjects at a glance

EXAMPLE

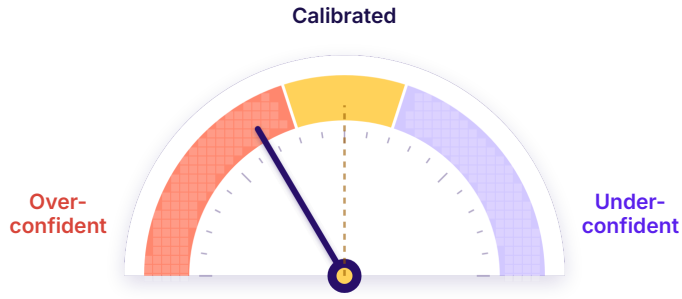

The shape shows how you score in each subject of the self-paced course. The dents are your weak spots.

The calibration dial

EXAMPLE

It compares how sure you were with how often you were right.

Three routes for every miss

In the live month, every question you miss links to three routes: re-watch Ari's solve, read the concept, or practice 10+ linked questions. Each day has its own "Your weak spots" panel.

One topic, from a miss to crisp

EXAMPLE

The class follows the weak spots

In 2026, two weak-spots marathons were built from a 753-question weak-spots deck: Sep 17 (cardiac cycle, enzyme kinetics, study-strategy Q&A) and Sep 18 (gas laws, redox, electrochemistry).

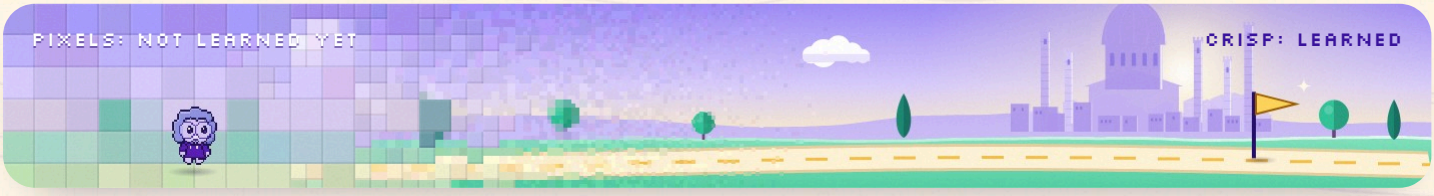

The simulator's report

The exam simulator runs full IMAT-timed tests and gives a weak-spot and pace report.

Private coaching

1-on-1 with Ari, a separate add-on: an individual approach to identify the exact weak spots holding back your score.

Fully booked for 2027

05 · THE LIVE MONTH

Four weeks, live, right before the exam.

Included in the €999 course, for every student: the 4 weeks before the exam, about 3 hours of classes a day on average, usually in the afternoon and evening, CET. Students call it the single most impactful part of their prep.

MARATHON *noun*

A live 2-3 hour class where the whole group solves real IMAT questions together with Ari, out loud, working the strategy and the traps, until it finally clicks.

The course page's definition. In 2026 the recordings ran 57 to 127 minutes.

1. Solve real questions together
2. Strategy and timing
3. Fix weak spots live
4. Ask anything, get it answered

Times can move: the teachers are medical students too. In 2026 about 5% of classes were canceled or moved, and the month ran very consistently. Live classes are rescheduled when needed.

September 2026, evening by evening.

Every tower is one real session on its real date; its height is the length of the recording.

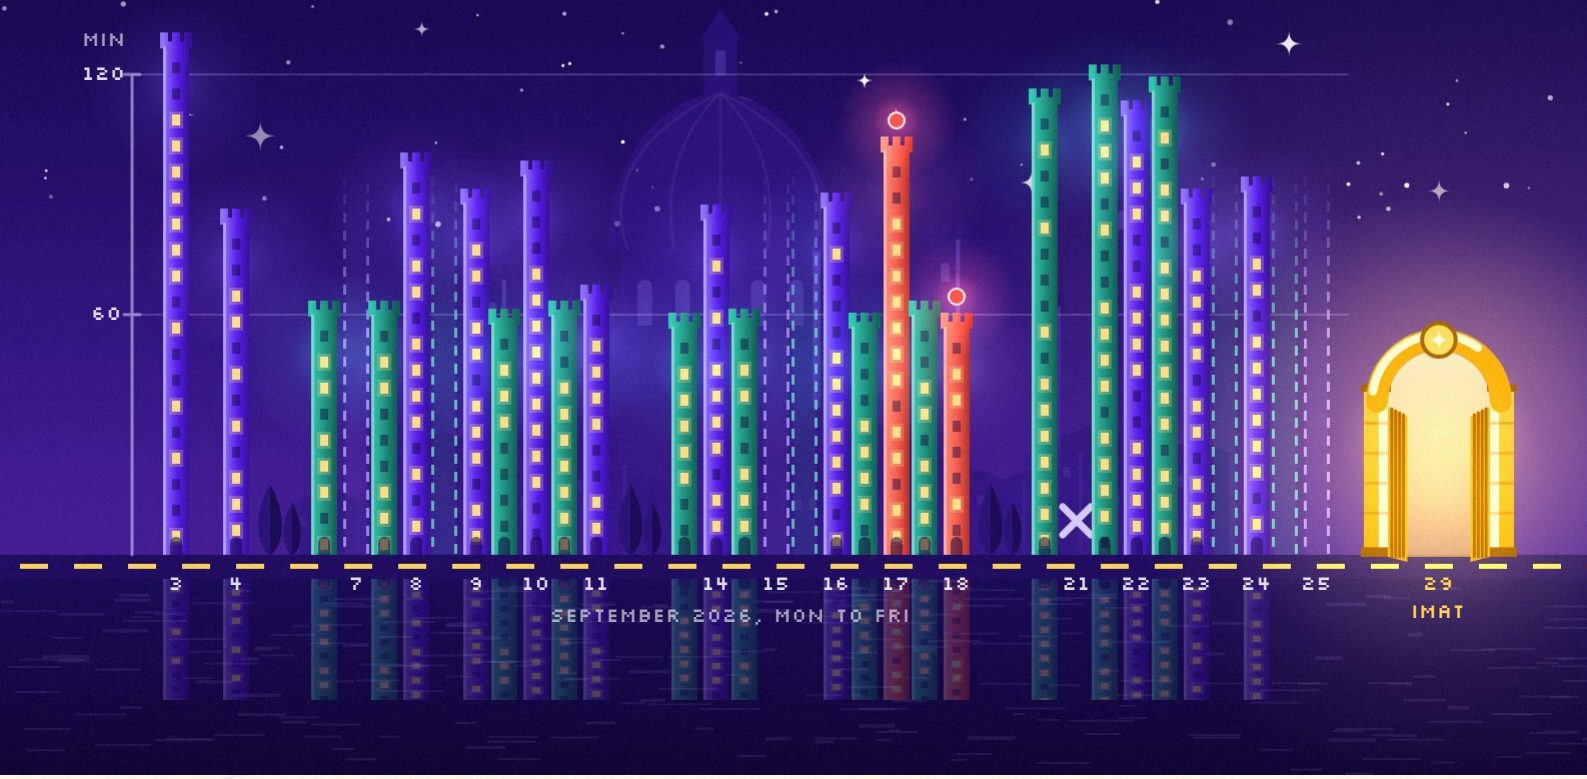

32 sessions scheduled: 17 with Ari, 15 physics

24 recorded, 33.1 hours in all

196 exam-style questions solved live

81% of 1,780 live chat answers correct

1 canceled: Sep 21, Ari unwell

SEP 24 THU	Physics NOT RECORDED	Chemistry: acids and bases 91 MIN
SEP 25 FRI	Physics NOT RECORDED	Final marathon HELD, NOT RECORDED

SOURCE the 2026 class records. MIN is the recording length, Q the questions solved live. 7 sessions have no recording: 1 was held live, 6 are not confirmed as held; their dashed outlines have a nominal height.

06 · WHAT WE EXPECT FROM YOU

Steady, focused work. We plan the rest.

1 Before you begin

Run through the free study planner once, so you understand the pacing. Check that you can register for the IMAT and get any visas or documents you need.

2 Around three focused months

That is what most students spend with the course. There is a lot of material: follow the plan closely, study in focused blocks, and mark lessons as complete as you go.

3 The live month

The 4 weeks before the exam, about 3 hours of classes a day on average. Be there: the pass guarantee asks for at least 75% of the marathons.

4 IMAT day

Everything leads here. Sit the exam: the guarantee applies only if you do, and if something stops you, tell Ari in advance.

Ask when you are stuck

Post on the student-only platform, or message Ari on WhatsApp. Nobody is expected to push through a hard topic alone.

IMAT 2026 **Written right after the exam**

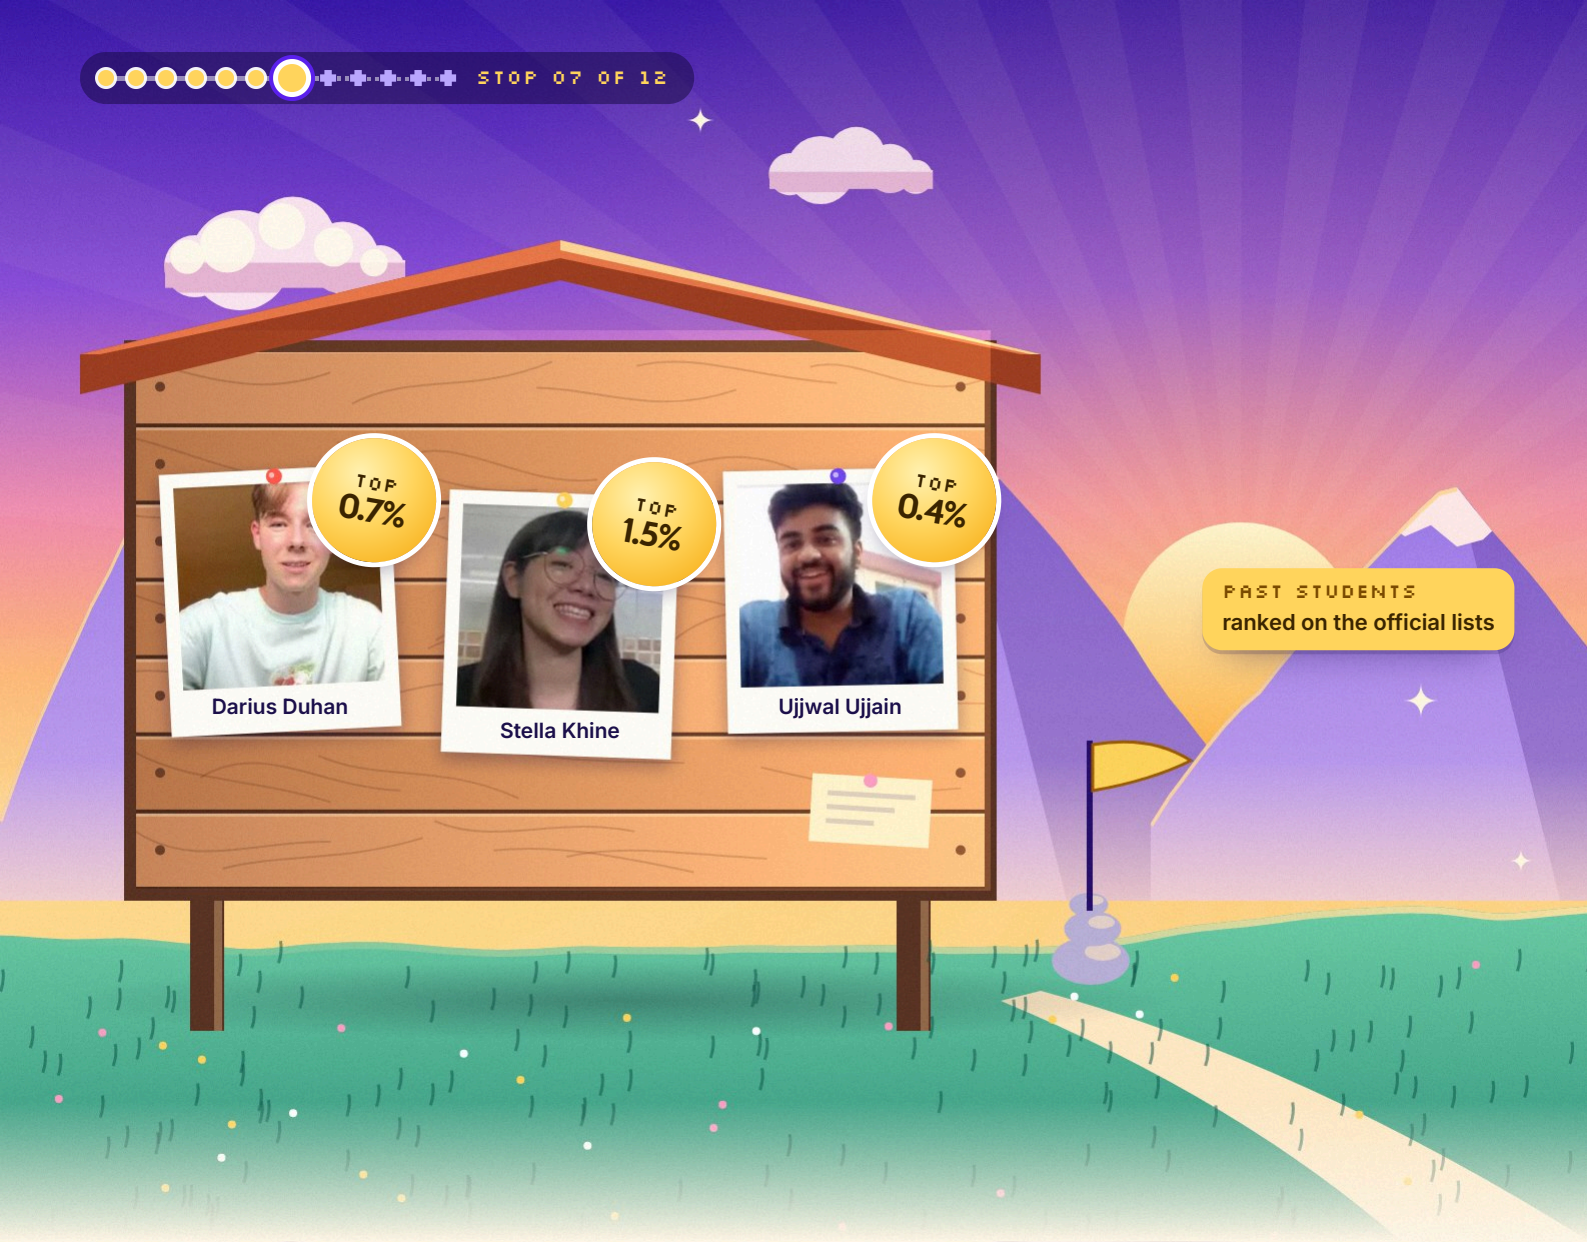

"I was struggling to study because I didn't have much time, so by September I was a little behind, but we did Marathons and they helped me a lot."

CLAUDIA A. · TRUSTPILOT · SEP 29, 2026

If you choose the BootCamp

It runs live from mid-June until the IMAT, at an advanced level, with the live month at the end. It is a challenging course by design: the four "for you only if" boxes on page 15 say who it is for.

SOURCE the course page, Ari's 2027 answers and the pass-guarantee conditions (page 17).

07 · WHAT LAST YEAR LOOKED LIKE

2026, from the class records.

700+
students prepared with our live classes or 1-on-1 coaching, by Jan 2026

5.0
on Google, from 50+ reviews

81%
of 1,780 live chat answers correct, Sep 2026

2021
the course has run since 2021, with new lessons every year

Students who made it (earlier years)

- **Top 0.4%** Ujjwal Ujjain, University of Pavia
- **Top 0.7%** Darius Duhan, University of Pavia
- **Top 1.5%** Stella Khine, University of Turin

Ranks are public data: each year's official list of all IMAT candidates. Their video interviews are on the course page.

Every September since 2024

- 2024: 10 live marathons, 25.9 hours
- 2025: 10 live marathons, 21.2 hours
- 2026: two tracks a day for 4 weeks, 32 sessions scheduled

Class recordings on file

- 2023: 45 classes, 94.9 hours
- 2024: 32 classes, 61.8 hours
- 2025 BootCamp: 37 classes, 61.2 hours
- 2026 BootCamp: 44 classes, 53.9 hours

IMAT 2026 the exam was sat on Sep 29, 2026. This year's results are added to the guide once the official lists are published.

08 · WHAT WE FOCUS ON FOR 2027

Built from what this year's class finds hard.

The 2027 focus is not a fixed list. It is the topics students find hardest that same year and report to Ari. We check their weak spots on the system, and the course and the live month adapt to what they need.

How it looked in 2026

Two weak-spots marathons, Sep 17 and 18: the cardiac cycle, enzyme kinetics, gas laws, redox and electrochemistry. And genetics traps that caught most of the class, taken apart live.

Last year's classes, inside the course

The 2026 BootCamp and the 2024-25 marathon recordings are edited and added to the course by 1 November. They are included with the €999 course.

- 2026 BootCamp: 44 lessons, 53.9 hours
- 2024 and 2025 live marathons: 20 classes, 47.1 hours

Also for 2027

- English grammar joins problem solving in the BootCamp.
- An upgrade path: course students can move up to the BootCamp for €1,499 more, until 1 June.
- One clear price: the €849 early bird ended with IMAT 2026. €999, with no new early bird.
- Updated after every IMAT sitting, with new content based on student requests.

You tell us what is hard. The system confirms it.
The class changes to meet it.

STOP 09 OF 12

09 · ARI'S IMAT SUMMER BOOTCAMP

Advanced students, want more?

A live class from mid-June until the IMAT, taught by Ari: the material reviewed at an advanced level, questions tackled together, strategy built together. For students who want the most personal help and guidance, aiming at the most competitive universities in Italy. Advanced, not for beginners.

09

THE SUMMIT
the IMAT

SUMMER 2027
ADVANCED

€2,499

VAT included. It **includes the full €999 course**, the live month and lifetime EnterMedSchool+.

Our most advanced program, for students aiming highest.

FOR YOU ONLY IF

- You are sitting **IMAT 2027**
- You have a **solid science background** (IB, AP, A-levels, SAT or olympiads)
- You want **the most demanding prep**
- You want **direct personal guidance**

Tick all four and the checkout appears. No approval step: it is a challenging course, by design.

SEATS

Usually around 30. The number can change, so no class size is promised. What is promised: the quality, the personal help and the approach. Ari never accepts more students than he can teach.

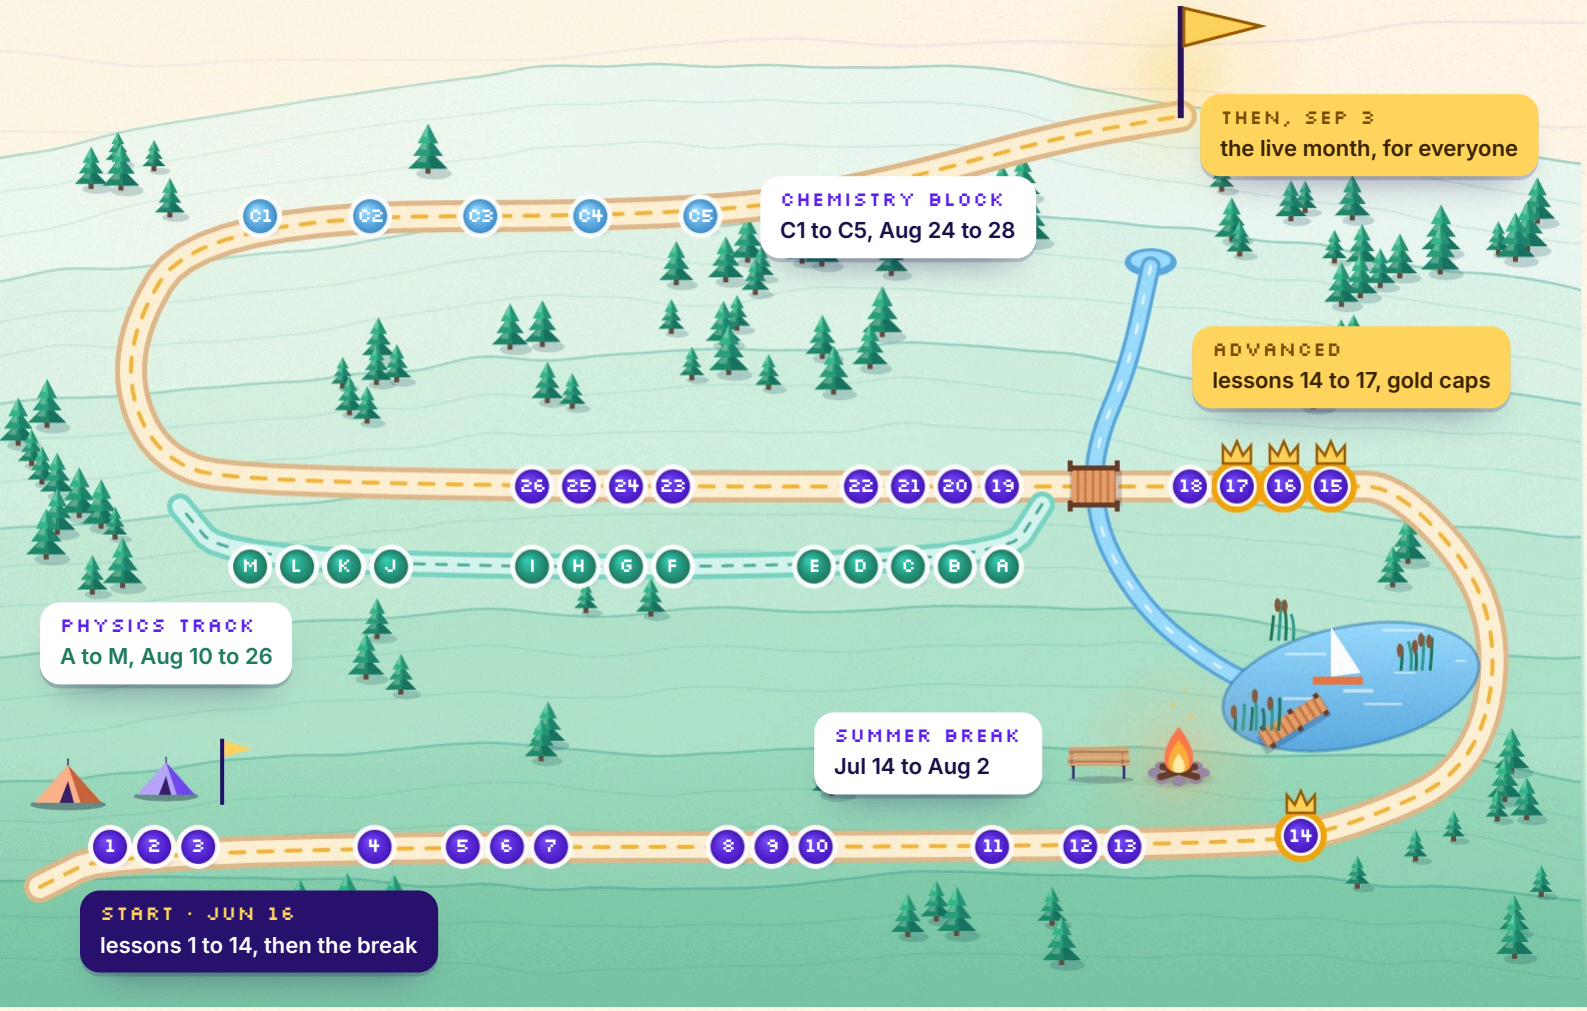

THE UPGRADE

Already in the course? €1,499 more (€2,498 in total), until 1 June. The same four boxes apply. Installments work as for the BootCamp: contact Ari for a plan.

BASE CAMP
mid-June

The summer BootCamp, lesson by lesson.

44 recorded lessons, 53.9 hours, Jun 16 to Aug 28, 2026: 31 lessons by Ari and 13 in the physics track. Every marker is one lesson, placed by date along the trail, so a gap is days without a lesson.

JUN 16 TO JUL 13

Foundations, with Ari

1 Introduction & The Properties of Life
2 Homeostasis, Feedback Loops & Natural Selection
3 Cells, Organelles & Levels of Organization

B 2D Kinematics
C Rotational Kinematics
D Dynamics: Newton's Laws
E Dynamics: Friction & the Inclined Plane
F Dynamics Questions & Intro to Work
G Energy Formulas: Kinetic, Potential & Springs
H Power, Efficiency & Energy Problems
I Momentum, Impulse & Collisions
J Fluid Mechanics
K Thermodynamics: Heat & the First Law
L Ideal Gases & Kinetic Theory
M Electricity: Force, Energy & Potential

EXPECTED FOR 2027

Similar to 2026: foundations from mid-June, a summer break, advanced biology and physiology, physics, a chemistry block, then the live month until the exam. Problem solving and English grammar are taught too.

10 · PRICES, PAYMENT AND THE GUARANTEE

Two ways in. Everything listed.

MOST STUDENTS START HERE

IMAT 2027 course — €999

VAT included · yours from the day you join until IMAT 2027

- Everything on page 6, the live month included
- Every BootCamp and live-month recording, summer 2026 included, added by 1 November
- WhatsApp access to Ari
- The pass guarantee, and lifetime EnterMedSchool+
- **Pay by card or with Klarna**

SUMMER 2027 · ADVANCED

Ari's IMAT Summer BootCamp — €2,499

VAT included · opens when all four "for you only if" boxes are ticked

- Everything in the €999 course
- The live advanced class, mid-June until the IMAT, taught by Ari
- Upgrade from the course: €1,499 more (€2,498 in total), until 1 June
- **Card, Klarna where supported, or installments**

How to pay

- **Card,** through a secure Stripe checkout, from the course page.
- **Klarna,** usually 4 payments. Availability depends on your country.
- **BootCamp installments** (planned terms): as many payments as you want, the last by 1 June, with no interest and no fees. Today: contact Ari for an installment plan.
- Every price includes VAT. The invoice is sent separately after payment.

Refunds

The course (current policy): a refund can be requested within 14 days of purchase, before a significant part of the course is used; no refunds inside 30 days of the IMAT; card and Stripe fees are deducted. The BootCamp (planned terms): the EU 14-day right of withdrawal applies. Full terms: **entermedschool.com/terms**.

The pass guarantee, 2027

It covers the basic course.

Use the course, sit the IMAT and don't pass: your retake of the basic course is free (for BootCamp buyers too, as the basic course, not a second BootCamp). Using the course means all of:

- at least 1,000 questions solved
- at least 75% of the marathons (BootCamp: of the BootCamp classes)
- at least 50 hours of lessons watched
- you sit the IMAT; if you can't, tell Ari in advance
- you ask for the retake within a month after the IMAT
- the account is never sold or given to anyone; the retake uses the same account

11 · FOR PARENTS AND GUARDIANS

A clear picture, for the family behind the student.

Ari sends this guide to students and to their parents, so this chapter is written for you: who teaches your child, what they will do, what it costs, what we help with and what we don't, and how to reach Ari directly. EnterMedSchool is a small family business, and you can write to the person who runs it.

ARI HORESH
founder and lead instructor, a medical student at the University of Pavia

11

For parents

€999
VAT included, the live month inside the price

16+
accounts start at 16; under 18, a parent is the buyer

14 days
to ask for a course refund, before much is used

Direct
parents can write to Ari about their child's progress

The questions a parent asks.

In plain words, from the course terms and from Ari.

What is the IMAT?

The entrance exam to study medicine in English in Italy. IMAT 2027 is most likely in September 2027; the official date is announced in the summer. Most IMAT takers are adults: by Ari's estimate, about 20% are minors.

Who is teaching my child?

Ari Horesh, founder and lead instructor, a medical student at the University of Pavia, and his sister Daniela, University Student of Neuroscience Psychology and Computer Science, who teaches the math and physics videos.

What will my child actually do?

- Video lessons from the basics, practice questions and real past-paper questions, at their own pace.
- Around three focused months with the course, following the plan.
- The live month: the 4 weeks before the exam, about 3 hours of classes a day on average.
- A weak-spots analysis that shows what they get wrong and what to study next.

What does it cost?

€999, VAT included, with the live month inside the price and no extra charge. The optional **BootCamp is €2,499** and already includes the course, so you never pay for both. The upgrade from the course later is €1,499 more, until 1 June.

How does paying work?

By card, or with Klarna: usually 4 payments, depending on your country. For the BootCamp, installments are planned: as many payments as you want, the last by 1 June, with no interest and no fees; today, contact Ari for a plan. The invoice is sent separately after payment.

And refunds?

For the course, a refund can be requested within 14 days of purchase, before a significant part is used; not inside 30 days of the IMAT; card and Stripe fees are deducted. For the BootCamp, the EU 14-day right of withdrawal applies (planned terms). Full terms at entermedschool.com/terms.

The pass guarantee, in plain words

It covers the basic course. If your child uses the course (at least 1,000 questions, 75% of the marathons, 50 hours of lessons), sits the IMAT and does not pass, they retake the basic course for free. They must tell Ari in advance if they cannot sit the exam, and ask for the retake within a month after the exam. The account can never be sold or given away.

Is it right for a minor?

- Accounts are for ages 16 and up.
- Under 18, a parent or guardian is the buyer: you accept the terms and pay with your own card. Under Italian law a minor's purchase can be annulled, so this protects both sides.
- Social features are 18+. Students aged 16 and 17 get the educational features only.

ONE PRICE

€999, VAT included. The live month is inside it.

A DIRECT LINE

You can write to Ari himself, by email or on WhatsApp.

THE GUARANTEE

Use the course, sit the IMAT, and if your child does not pass, the basic course retake is free.

What we do, and what we don't.

So that you know exactly where our help starts and ends.

WHAT WE DO

- **We teach for the exam.** It is what we have mastered over the years, and all we focus on.
- **We advise** on the IMAT, on the studies, and on choosing the best university for your child.
- **We answer you directly.** Parents can contact Ari to ask how their child is progressing.

WHAT WE DON'T

- **No help with visas, housing or living costs,** and no plans to offer it. It is not our field, and we would not advise on it well.
- Before you pay, please make sure your child can register for the IMAT and get any visas or documents they need.

Talk to Ari directly

Ask Ari about your child's progress, the course or the exam. He answers parents himself.

EMAIL
ari@entermedschool.com

WHATSAPP
+39 375 612 3111

Coming: a page where you can see a breakdown of what your child has done so far. It is being built, and not live yet.

DOES IT WORK?

Judge by results. Three students who prepared with us placed in the **Top 0.4%**, **Top 0.7%** and **Top 1.5%** of all IMAT candidates on the official lists, and tell their story in video interviews on the course page.

5.0 on Google, from **50+ reviews**. A selection is quoted word for word on page 22.

THE SHORT VERSION

One teacher you can write to. One price, VAT included, with the live month inside it. Clear refund rules, a pass guarantee, and accounts built for students aged 16 and up, with a parent as the buyer under 18.

12 · QUESTIONS, ANSWERED

Questions, answered.

When should I start?

Most students spend around three focused months with the course. Before you begin, run through the free study planner once so you understand the pacing.

When is IMAT 2027?

Most likely in September 2027. The official date is announced in the summer, and the BootCamp and live-month dates follow it.

How long will I have access?

From the day you join until IMAT 2027. EnterMedSchool+ stays with you for life, through med school and beyond.

Is the live month really included?

Yes. The 4 weeks before the exam are part of the €999 course. Competitors charge €1,000+ for one month of live lessons.

Can I ask questions when I get stuck?

Yes. Post any question on the student-only platform and the teaching team and other students will walk you through it. You also have Ari's WhatsApp number for direct support.

I have no science background. Can I still do it?

Yes. We teach everything from the basics (math, physics, biology, chemistry) with 2,600+ videos starting from zero. No prior knowledge needed.

Will it help with other exams?

The scientific fundamentals and exam strategies transfer well to other medical admission tests. The same math and physics course is also sold alone, for other exams.

What if I don't pass?

The pass guarantee covers the basic course: use it (1,000+ questions, 75% of the marathons, 50 hours of lessons), sit the IMAT, and your retake is free. Conditions on page 17.

What is the refund policy?

Within 14 days of purchase, before using a significant part of the course. No refunds inside 30 days of the IMAT. Card and Stripe fees are deducted.

What if the IMAT changes or is canceled?

The course keeps running: it builds the science and exam skills needed for any admission test. Live classes are rescheduled when needed, but enrollments are non-refundable in the event of national policy changes.

Is there a payment plan?

Klarna, usually 4 payments, where your country supports it. For the BootCamp, contact Ari for an installment plan: as many payments as you want, the last by 1 June (planned terms).

How is the BootCamp different?

The course is self-paced and includes the BootCamp recordings. The BootCamp is the live advanced class itself, from mid-June until the IMAT, with the most personal guidance we offer. It includes the course.

Is there an early-bird price?

No. The €849 early bird ended with IMAT 2026. The course is €999, VAT included.

Who teaches math and physics?

Daniela, Ari's sister, teaches the 2,600+ math and physics videos, starting from zero, so every concept builds on the previous one.

Can I book private coaching?

Private 1-on-1 coaching with Ari is a separate add-on, and it is fully booked for 2027.

Do you help with visas or housing?

No. We teach for the exam and advise on the IMAT, the studies and choosing a university. Visas, housing and living costs are not our field.

IMAT 2026 **Written right after the exam**

★★★★★ *Raw, honest words from the latest IMAT, written the day she sat it.*

I really appreciate this course. Ari and Daniella are amazing. The platform has notes, summaries from the books, and a study schedule that helped me a lot. I was struggling to study because I didn't have much time, so by September I was a little behind, but we did Marathons and they helped me a lot. I was able to cover all my weak spots, especially in physics, which I had basically given up on, and chemistry too. I really recommend it; you can see Ari's dedication in everything in the course, and the explanations are great. I think it's the best way to prepare if you want to take the IMAT.

CLAUDIA A. · IMAT 2026 · TRUSTPILOT · SEP 29, 2026

The Marathons are the classes of the live month (page 10).

★★★★★

Game changer for the IMAT

As a 25-year-old applying to medical school in Italy seven years after high school, I had forgotten almost all of my basic science concepts. Finding Ari's course changed everything.

It single-handedly rebuilt my foundation, giving me the knowledge and confidence to solve IMAT questions with almost 100% accuracy and zero hesitation. Ari is an amazing teacher, and the website tools make staying on track effortless. Highly recommended for anyone looking for a comprehensive, effective prep course!

★★★★★

Ari was really helpful, and specific to answering each person's case and situation. Was great to have insights on our study method and review the following steps of our preparation.

★★★★★

Excellent course and preparation for IMAT.

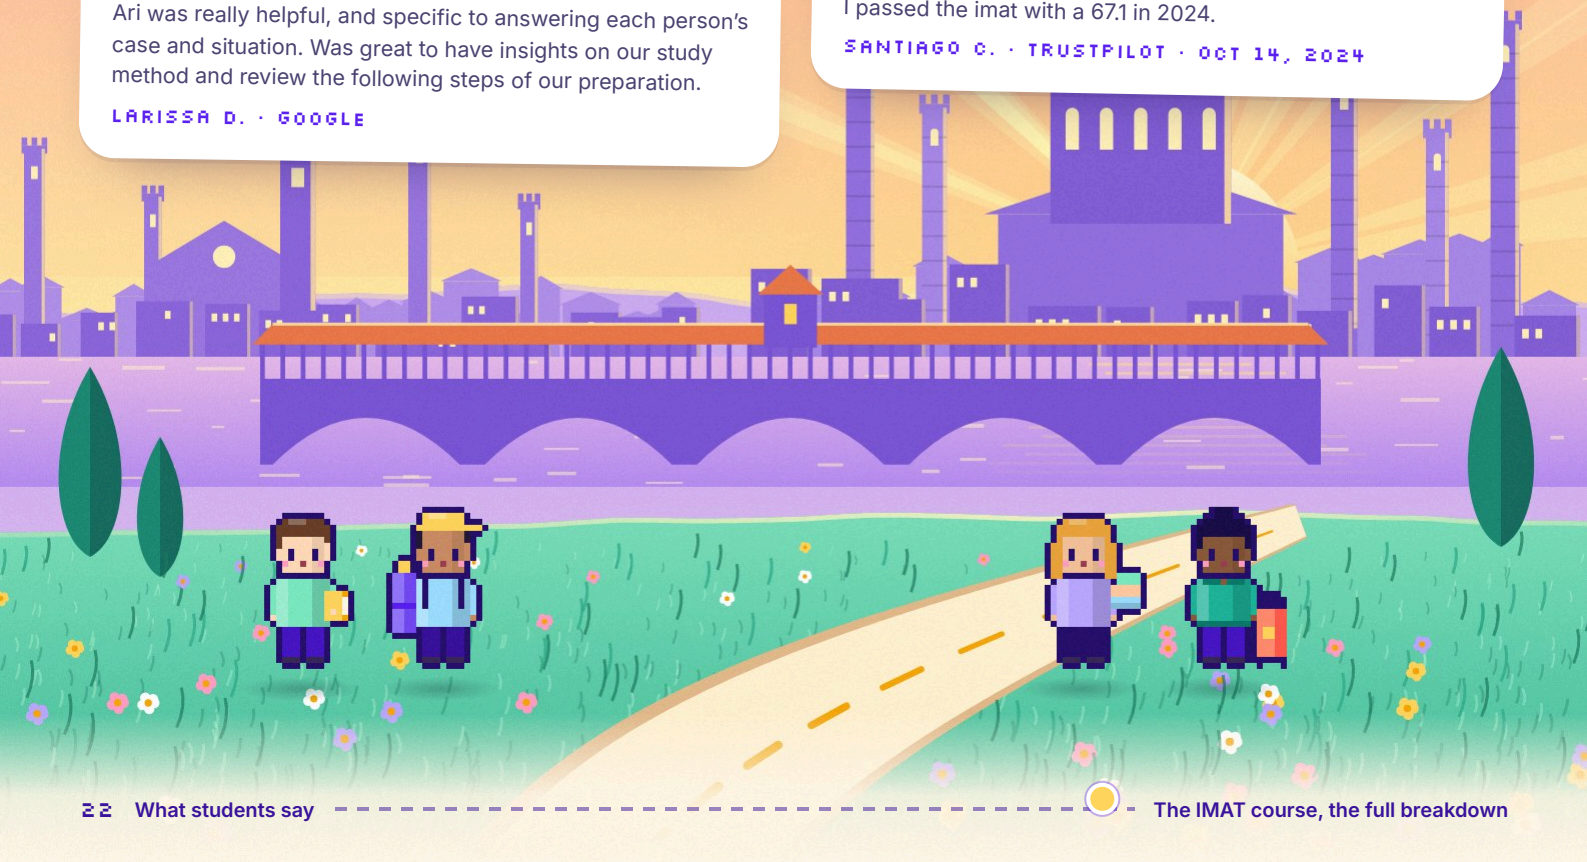

Excellent course for preparation and information. This exam can be very confusing both in the questions and the processes surrounding it. Ari Horesh is extremely well informed and extremely helpful. He is always available for questions and always willing to offer help at almost any time of day.

You also have access to a community of other students working toward the same exam as you to help and answer questions.

The course sections are detailed, concise and create good habits for studying for this exam. Ari also gives excellent exam strategy to work around individual strengths and weaknesses.

I passed the imat with a 67.1 in 2024.
